II. CONCLUSION

No Drought Government of India Taken all efforts to develop Minorities in all Manner. They also try to take them in to main stream for that all possible initiatives and facilities were made but need to aware all minorities about these facilities. People not Aware about Government made different schemes and facility for them. And sometimes its not reach to them, due to corruption or other reason.

In spite of the affirmative actions taken by the Government of India, for empowerment of Muslim and other Minorities. All the states are not benefitted uniformly from these provisions, schemes and facilities provided through these affirmative actions.

Over the years the number of initiatives taken by the Government; still empowerment of Muslims is not satisfactory in terms backwardness. Therefore attention is needed for increasing their enrolment, include Skill Development, Education, Multi Sectoral Development Programmed, Secularism & Empowerment, addressing adverse socio-cultural and economic realities as these are the keys in removing backwardness of Muslims and other minorities. Need to evaluate this schemes and initiatives taken by Government for betterment of Minorities.

Some of the schemes and initiatives was predicted for future preface is not benefitted in present.

This paper also highlighted benefitted cities like New Delhi, Allahabad, Pondicherry and Mumbai etc. region benefitted from government initiatives but other region of the Muslim minority avail to benefitted which can be emulated in other parts of the country.

In any case, Muslim community has remained slow in taking advantage of government’s policies and programmes. This is largely because of their cultural ethos resulting slow progress comparison with other minorities. This makes it clear that the problems of weak development of Muslims need to be understood and treated as per the need and in an area specific manner.

For Haj Government taken initiatives like women without Mihram going to Haj Pilgrimes. But In Islam Women Alone Cannot go Haj Without Mihram, So Scheme Regarding Haj without Mihram Will not work. Government should have to taken some rules and regulation of Islam either it will not work.

Due to the negative attitude and low aspirations towards education, Socio-economic Status, Empowerment of these people. These issues need critical examination. However, there is an urgent need for proper monitoring and implementation of the programme. Finally, it is equally necessary for the government to create conducive and safe environment for removing the feeling of discrimination, along with education as factors for development of religious communities, particularly of Muslims, in India.

Still we can say that it will motivated and created enthusiasm among the minorities towards the development.
